

Marking Symbols

Use this page to keep track of any marking symbols that you use as you work through your study. Remember that there is no magic formula for how you mark any particular word. The key is to do whatever works for YOU as you work through the text. Keep it as simple as you need to, or as complex as you would like. What is important is simply that you are slowing down and paying attention to the words in the text, noticing how and why they are being used, and what they are telling you.
